

For all your industrial maintenance

know-how,

you know who.

Starlit is specialized in maintenance, repair and overhaul (MRO) of Industrial plant and equipment with a wide range of industrial maintenance products.

We also provide one-stop solutions in global sourcing and fast delivery to meet your needs.

48 Toh Guan Road East #08-144 Enterprise Hub Singapore 608586

**A Company of Starlit Group
Affiliates in Malaysia, Thailand & Indonesia**

Numatics Inc. has been a leading manufacturer of pneumatic control technology for over 55 years. Numatics manufactures pneumatic components for automated machinery.

These products include:

- Directional control valves,
- Regulators,
- Cylinders/actuators,
- Slides,
- Rodless cylinders,
- Rotary actuators.

Turn-Act Inc. is a leading manufacturer of pneumatic cylinders, rotary actuators and multi-motion devices.

These products include:

- Linear actuators,
- Rotary actuators,
- Guided cylinders.

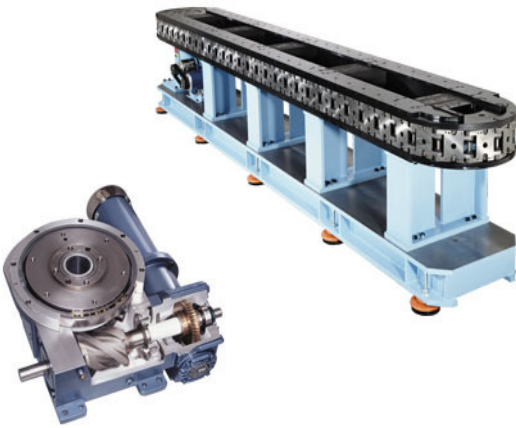

SMC Group's pneumatic control equipment has acquired the world's top-class reputation by achieving a high customer satisfaction in terms of performance, quality, pricing and lead time.

These products include:

- Valve and manifold,
- Rodless Cylinders,
- Actuators,
- Air gripper,
- Slides,
- Vacuum Product.

Schmalz's complex vacuum gripping systems let you implement decisive productivity increases during automated processes. Our product range includes a variety of suction pads with various shapes, sizes and materials, providing the right suction pad for every application. Suction pad grippers consist of a suction pad and a connection nipple.

CAMCO is a leading manufacturer of precision cam-actuated index drives, parts handlers, precision in-line conveyors and custom cams.

These products include:

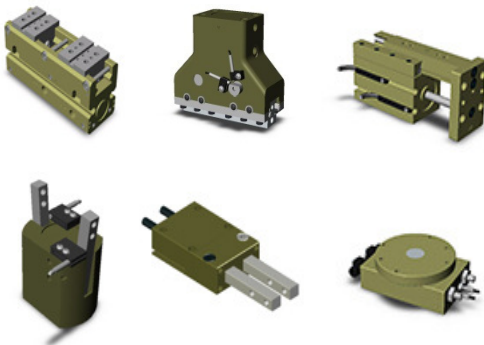

- Roller gear index drives,
- Right angle index drives,
- Precision link conveyor
- Ring index drives.

Cone Drive is the world leader in double enveloping worm gear technology, which delivers drive solutions with the highest torque and shock load capacity in the smallest amount of space.

These products include:

- Geared motors,
- Cone ring couplings,
- Industrial reducers.

DE-STA-CO is a worldwide leader in the innovation, design, manufacture and support of clamping, gripping, indexing, transfer and robotic tooling solutions for workplace and automation needs.

These products include:

- Grippers,
- Rotary Actuators,
- Escapements,
- Linear Motion Slides.

O-Rings are available in five different polymer materials (Silicone, Viton®, Buna-N, Kalrez® and Teflon)

Garlock offers a complete range of non-asbestos gasket materials that comply with the most stringent environmental regulations.
